- Neighborhood Advocacy
 - RestoringTrenton.org
 - TNRC
- Policy Advocacy
- Placemaking

Healthy Homes, Healthy Trenton

What are the health, economic, and social consequences, and policy and enforcement causes, of current housing conditions in Trenton?

Healthy Homes, Healthy Trenton

- **Health:** What are the most common and pressing housing conditions that impact health? How do we understand them at the local level?
- **Affordability:** What current trends affect cost of housing, and what programs and policies are available to ensure housing is affordable?
- **Safety:** How does the housing market contribute to the reality and perception of public safety?
- **Policy:** What policies and enforcement practices produced and maintain the current housing conditions/system in Trenton?

What policy, program, and practice changes can be made to address current housing conditions, housing market conditions, and the housing system in general?

Healthy Homes, Healthy Trenton: Progress to Date

- Affordable housing database
- Housing is health
- Lead
- Neighborhood market conditions study
